**Subject:** Support for Proposal #4

To whom it may concern:

I'm not a fisherman, but I did grow up in an island community. As a parent, it is very important to me that the coastal habitats are protected. As a family, we always try to plan our vacations to include a trip to the coast. My two sons enjoy spending time at the coast and learning about the diverse sea-life. One of them is interested in becoming a marine biologist. I support Draft Proposal #4 – to ensure that my sons and their children can continue to enjoy the wonderful resources that our state offers.
